WIND AND RAIN DOES DAMAGE

Passes Over Small Part of Eastern
Rush County, Wrecking Havoc
to Fields.

IS PURELY A LOCAL STORM

Few Houses Are Unroofed, Timber is
Blown Down and Corn is
Hurt.

A wind and rain storm which did not to a slight degree compare to the one of last week, passed over a portion of Rush county late yesterday afternoon and did considerable damage. It seemed to be only a local shower as there are no reports of any damage from a storm with the exception of a small strip in the northeastern part of the county.

The wind and rain was very severe, almost equal to the storm of last week, but it reached its greatest intensity only in a few vicinities, so that the damage was not near so great as it was in the storm of last week. There was no lightning or thunder.

The greatest damage was done to the corn crop. Whole fields of corn, which had just begun to look better after the storm of last week were laid flat on the ground again. It is said that the storm damaged some fields to such an extent that the loss will be very great. Many wheat fields near Gings were littered with bundles of wheat. Shocks were blown down and the bundles were carried all over the field and in many cases into adjoining ones.

The damage to the timber lands was very great although not so bad as that done by the last storm. Many valuable forests were partially destroyed while in others only a few trees were blown down. Orchards were damaged to a slight extent while many fences and gates were blown down.

The roof on the house of Ira Hinchman living one mile east of Gings, was blown off, but little other damage was done about the farm. It was reported here this morning by a farmer living in the eastern part of the county that two houses near Griffin's Station had been blown over but the report could not be verified. It was said that several small out-buildings in that vicinity were damaged.

The rain in the eastern part of the county was the heaviest by far that has been had this year. One farmer is reported to have said this morning that water was standing a foot deep in his corn field this morning. The rain will cause the threshing in that part of the county to be postponed for a few days.

The storm interrupted several picnic parties east of the city. People who saw the cloud approaching say that it had every appearance of bearing a cyclone in its bosom, even though it was very small and was apparently only a local shower.

FIRST WHEAT MARKETING.

The first new wheat of the season today was hauled to the Murphy & Jinks elevator in Glenwood. It graded sixty-two pounds to the bushel and is considered of a very fine quality, above the average. No new wheat has been received at the Rushville elevators.

Generally fair except probably local thunder showers tonight or Thursday. Not so warm in north-west portion tonight and in north portion Thursday.

MRS. WILNA MILLER DEAD

Passed Away Yesterday at Her Home
In Arlington.

Mrs. Wilna Miller, twenty-two years old, wife of Clyde Miller, the C. H. & D. operator in Arlington, died at her home there yesterday afternoon about one o'clock. She had been ill only a short time, the cause of her death being peritonitis. She is survived by her husband. Short services were held at the home last evening and the remains taken to Tuscola, Ill., this morning for burial.

COMMISSIONERS IN BUSY SESSION

Award Contract For One Road and
Continue Several Other Highway
Petitions.

PLAN FOR BRIDGE CONTRACTS

Two Roads in Noble Township Are
Ordered to be Built—County
Supplies Contracts.

The county commissioners had a busy session today, awarding the contracts for the supplies for the county poor asylum, awarding a road contract, ordering the construction of several roads, arranging to advertise for bids and let contracts on roads and bridges and transacting several other business matters of minor importance.

Late this afternoon the contract for the poor asylum supplies were let to the following firms: Meat, Weeks Fresh Meat & Provision Co.; groceries, Havens Bros.; shoes, Ben A. Cox; dry goods, Callaghan, Oliver & Company; clothing, Bliss & Cowing, and coal, Murphy & Jinks of Glenwood.

The petition of E. B. Lowden and others of Walker township for a new highway was taken up and viewers appointed. They are Charles H. Lyons, and James W. Anderson and they are ordered to qualify in ten days.

The contract for the James E. Caldwell road in Jackson township was awarded to Wilk & Company of this city for \$8,590. Colter Brothers of Anderson township were the only other bidders.

Walter Patton was appointed viewer of the J. M. Amos road instead of John H. Frazee. The petition praying for the vacation of the C. O. Patton highway in Anderson township was granted.

The petition for the Hal Green road in Jackson township and the one for the W. A. Mull road in this township, which came up today, were continued until the August meeting. The petitions for the A. W. Bennett road in this township, the Rolla Alexander road in Posey, the Isaac Webb road in this township, the William Leisure highway in Posey, and the John Jordan road in Posey were continued until the July 24 meeting.

The Edgar Morris road and the Macon Wiley road, both in Noble township, were ordered to be constructed. William L. Walker and Thomas A. Jones were appointed viewers for the Frank Moore road in Richland township.

The retaining wall for the Carthage pike, which was petitioned for some time ago, was ordered. Arrangements were made to advertise for bids on some bridge work and to let contracts on bridge work at the meeting July 24.

Mrs. Fred Caldwell and son James returned last evening from Rising Sun, where they spent the Fourth.

MANSFIELD IS CHIEF SPEAKER

Consul to Berne, Switzerland Deliv-
ers Principal Address at An-
derson Fourth Celebration.

IS SALUTED BY CLUB MEMBERS

Many Prominent Men Call at Hendee
Home to Greet Robert
Mansfield.

Robert Mansfield, American consul to Berne, Switzerland, and son-in-law of Mr. and Mrs. John K. Gowdy, at whose home in this city, he, together with his wife, has been spending the summer, was the principal orator at the big Fourth of July celebration at Anderson yesterday. Mr. Mansfield's address was the chief thing which was planned for the Fourth although a number of other things had been planned. The Anderson Herald of Tuesday morning has to say of his reception in Anderson:

Robert Mansfield, American consul to Berne, Switzerland, who is to be the orator of the day in the celebration at Mounds park Tuesday afternoon, was entertained Monday at the home of Mr. and Mrs. E. E. Hendee on West Twelfth street. Mrs. Mansfield had been invited to visit the Hendee home for today's occasion, but she was unable to come.

Many of the citizens of Anderson called at the Hendee home to pay their regards to the visitors and he was greatly pleased to meet among them some of his good friends of former days when he spent more time in Indiana.

Among the guests who spent the evening at the Hendee home were W. B. Campbell, D. J. Crittenger, Dr. E. W. Chittenden, C. H. Neff, F. A. Walker, J. F. McClure, B. H. Canaday, N. J. Pilger, W. S. Ellis, G. W. Lilly and J. L. Vermillion.

Tuesday morning at 7 o'clock the Riding club will assemble at the White House corner and go to the park and become a part of the military attraction of the day. Last evening after returning from the park the riders went to the home of Mr. and Mrs. E. E. Hendee on West Twelfth street to salute Robert Mansfield, orator of today, who, with Mrs. Mansfield, are guests of the Hendees.

MAY GET "BILLY" SUNDAY

New Castle Ministerial Association
Follows in Rushville's Wake.

At the meeting of the New Castle Ministerial Association Monday steps were taken to secure the services of William Sunday, otherwise known as "Billy" Sunday, the former baseball player, who has made a big record as a sensational evangelist and as a money-getter, says the New Castle Times. The association took up the matter as the first move for a joint evangelistic meeting here and if Sunday can not be secured, another evangelist of equal convincing powers, but probably not as great a persuader in the money line, will be secured. The matter will be taken up at the next meeting of the association.

There is still another in this world who will celebrate his birthday on the Fourth of July, the nation's birthday. A boy arrived at the home of Dr. and Mrs. Lowell M. Green in East Sixth street yesterday he tips the beam at nine pounds. Dr. Green has not been seen, but his father, T. M. Green, is a proud grandpa for the first time.

RUSH SUFFERS; ALWAYS THE CASE

This County Pays Taxes to Help
Support Schools in Many Other
Counties.

LOSES \$7,857.09 IN TRANSACTION

Annual Distribution of State School
Tax is Made—County Institute
August 28 to Sept. 1.

Rush county gets "stung" as usual in the annual distribution of the State school tax which has just been finished in the office of Charles Greathouse, State Superintendent of Public Instruction. Rush county has been apportioned \$10,176, which is far short of the amount which the county paid into the State school fund. The apportionments will be sent out to the county officials all over the State in a few days. The announcement of the apportionment is later than usual this year due to the fact that many county officials were late in making their settlements with the State.

Rush county paid into the State fund \$18,093.09, which is \$7,857.09 more than was received here in the apportionment. In other words Rush county tax payers help keep up the schools of other counties over the State where the school tax is not great enough to pay the school expenses.

Rush county's apportionment was the next to the smallest in the Sixth district. Fayette received only \$7,856.72, which was the least, while Wayne's apportionment, \$21,632.48, was by far the largest as there are many more school children in that county. Every county in the district suffered under the present plan as all paid in more than they received.

The county getting the largest apportionment is, of course, Marion, its allowance being \$128,768.80. Allen is second with \$55,787.80; St. Joseph, third, with \$51,312.48; Vigo fourth with \$50,888.48, and Vanderburg fifth with \$50,456. The county receiving the smallest apportionment is Ohio, which gets only \$2,427.40; Union is next with \$3,074, and Switzerland is third from the bottom with \$5,507.76.

The total amount apportioned was \$1,607,352.20, this amount representing the total of the State school tax, collected from the counties, the amounts derived from unclaimed fees and other sources and the fund remaining in the State treasury from the last apportionment, the latter being augmented by fees from the attorney general's office.

From the total State tax collected was deducted the 5.2 per cent set aside by law for the deficiency fund, school corporations not self-supporting being the beneficiaries of this sum. The enumeration of children within the State showed a total of 758,185, according to the figures compiled in the office of the State superintendent. The per capita apportionment was 2.12. A surplus of \$1,038.03 will remain in the fund after the distribution.

Many of the counties of the State, as usual, received apportionments in excess of the amounts of school fund taxes they forwarded to the State treasury.

The amounts derived from unclaimed fees reached a total of \$2,538.11.

The amounts derived from unclaimed fees reached a total of \$2,538.11.

Superintendent Greathouse has announced the list of dates for teachers' institutes in the various counties. The Rush county institute will be held August 28 to Sept. 1.

DIES AFTER LONG ILLNESS

Mrs. Charles Kennedy, 35 Years Old,
Succumbs.

Mrs. Sadie Mae Kennedy, thirty-five years old, wife of Charles Kennedy, died Monday afternoon shortly after three o'clock at her home near Pin Hook. Mrs. Kennedy had been ill a long time suffering from cancer, which caused her death. Besides her husband, two children survive. The funeral services were held this afternoon in the M. P. church in New Salem. Burial took place in East Hill cemetery.

PROMISES PEOPLE A BRIEF RESPITE

Weather Man Predicts That Local
Thunder Showers Will Alleviate
Conditions Shortly.

FAIR BREEZE PREVAILS TODAY

Mercury Rose to 97 Degrees in Shade
Today—Records For Period
Broken.

Relief from the sweltering heat of the last few days is promised by the weather man at last. He declares in today's prophecy that local thunder showers may help to alleviate the conditions that have prevailed in Rush county since Sunday. Although cooler weather is not prophesied, it is to be supposed that a lower temperature will follow rain.

The mercury in the thermometer again rose to ninety-seven today shortly after the noon hour. It is believed that Rushville people did not suffer so much today as they have the last three days on account of the breeze which blew much of the day. The temperature has risen higher this week than it did today, but this was warm enough.

Physicians have been busy during the warm spell caring for patients who have become ill due to the high temperature. No heat prostrations have been reported to the local authorities although there have been several cases in which patients have been on the verge of prostration.

It is believed that the warm weather will not continue very much longer as it would be without precedent if it did. Although no records have been kept here it is the common belief that the temperature of the last few days is the highest which has prevailed here for many years.

MRS. ROZZELL GETS DIVORCE

Judge Blair Grants Action on Cross
Complaint.

Mrs. Myrtle Rozzell was granted a divorce Monday from her husband, Harry Rozzell by Judge Blair in the Shelby circuit court. Mrs. Rozzell filed a cross complaint and it seems that her story had more weight with the court than the original complaint, for it was on the cross complaint that the divorce was granted. Mr. and Mrs. Rozzell formerly lived in Manilla and she alleged that he abandoned her. They were married on October 16, 1909 and the separation occurred July 14, 1910. Mrs. Rozzell is only sixteen years old, while he is but twenty-two.

Greensburg Standard: David D. Seright has filed suit for divorce from Almira Seright. They reside at Sandusky and have lived together since 1864.

COMMEND WORK OF JOHN MOSES

Board of Review Adopts Resolution,
Praising County Assessor For
Conducting Deliberations.

SESSION CLOSURES ON FOURTH

Board Has Many Complaints to Ad-
just This Year, Due to Real
Estate Assessments.

The work of the county board of review was completed in the auditor's office last evening after the board was in session all of the national holiday. The board has been in session for thirty days and has been busy continually adjusting assessments in all parts of the county.

The work of the board was much harder this year due to the fact that real estate was assessed, as is the case every four years. This was the occasion for many more complaints by real estate owners. The board adjusted all claims that came to their attention, lowering the assessments in some cases and raising them in others.

At the closing session yesterday afternoon, a member of the board who was appointed by Judge Alonzo Blair offered a resolution, commending the work of John F. Moses, county assessor. He moved its adoption and it was voted on favorably by every member of the board. The resolution is as follows:

Whereas the Rush county board of review is now about to close its regular session for the year 1911, and

Whereas the individual members of such board desires to express their appreciation of the services of John F. Moses, one of the members thereof,

Be it therefore resolved that we, the undersigned members of said board do hereby express our appreciation and our thanks to said John F. Moses, county assessor and chairman of said board, for the way in which he has conducted the deliberations of said body. He has at all times been conscientious and fair in arriving at conclusions; his efforts have been untiring in the accomplishment of the work prescribed; his treatment, both to the public and to members of this board has been manifestly fair, and his kindness and courtesy to the undersigned members of said board is deeply appreciated by them.

Be it further resolved that this resolution be entered of record on the minutes of said board.

John M. Stiers,
Chas. B. Bales,
Wm. M. McBride,
J. M. Stone,
Fanny Study.

IS THROWN FROM WAGON

Ben Jones Suffers Two Fractured
Ribs in Fall.

Ben Jones, who drives one of Martin & Wolfgang's straw teams met with a serious accident Saturday, says the Milroy Press. He had a load of baled straw and as he passed around the Hyatt barn one front wheel dropped into a mud hole throwing off the load, and Ben went with it. A bale struck him, fracturing two ribs and injuring his back. He will be laid up for some weeks.

Born to the wife of John Kelley in West First street, yesterday, a boy.

Mrs. Henry O'Rielly is ill at her home in North Harrison street.

PLANSTOCOMBAT TYPHOID FEVER

W. E. Barnard Is Arranging With
Wealth Officials Over State
For Crusade Against Disease.

TO LESSEN THE EPIDEMIC

Most Prolific Source of Typhoid Germ
is The Shallow, Open
Well.

H. E. Barnard, head of the water laboratory of the state board of health, is arranging with the local health officers throughout the state for a midsummer crusade against typhoid fever, on the theory that alertness on the part of the officers and co-operation by the laboratory will operate to lessen the annual epidemic of the disease, which reaches its height in August and September, says the Indianapolis News.

The most prolific source of typhoid, it has been shown by the state board of health, is the shallow, open well. It is to this evil that the water laboratory will give particular attention. Instructions sent out to all the health officers urge them to get in touch with the conditions accompanying every case of typhoid fever in their respective communities. The history of the patient for the weeks preceding the attack of the disease is to be studied carefully, and the source of the typhoid germs is to be traced as nearly as possible, without laboratory work.

When the local officer is convinced that the germs came from a well, a spring, or from any other source of water supply, samples of the water will be sent to the state laboratory, and an analysis will be made. Within three days from its receipt, the laboratory will be able to determine if the sample contains bacilli that

If Many a Wife Knew About Orrine

There would be less of the terrible affliction that comes to many homes from the excessive drinking of husband, father or son. Orrine has restored thousands of men to lives of sobriety and industry, and best of all they have made their loved ones happier. Orrine is prepared in two forms, pill and powder; the latter form can be given secretly. Only costs \$1.00 a box—a trifle when compared with the amount a man would spend for drink in a day. We have sold ORRINE for years, and will gladly tell you all about it. Come in and get a free booklet.

Lytle's Drug Store, Cor. 3d and Main

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose of the first appearance of the disease. For sale by All Dealers.

HIVES AND PRICKLY HEAT RELIEVED FREE!

There are no conditions attached to this offer. If you are suffering with hives, prickly heat, insect bites, or any other skin affliction, we want you to accept with our compliments a free bottle of ZEMO, the clean liquid remedy for eczema, and all diseases of the skin and scalp.

This free bottle is not full size, but it is large enough to show you the wonderful healing and soothing effects of ZEMO.

Call today for your sample bottle of ZEMO at the F. E. Wolcott Drug Store.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by All Dealers.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by All Dealers.

Hay Fever and Summer Colds.

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with Hay Fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For sale by F. B. Johnson, Druggist.

Healthy Scalp and Skin Price 10c

Dandruff, eczema, Cuban itch, or any other skin trouble quickly disappears when you go after it with Plex. "The quick-healing salve." Stops the itching in a hurry. A big box of Plex costs only 10 cents, but if you want quick and positive results, forget the low price, and try it. Plex does the work where costly alcoholic remedies have failed. Plex is a wonder-working, penetrating ointment. It destroys germs, cleans and heals quicker than anything else you ever heard of. Has a hundred uses in every home.

One application cures itching piles. Instant relief and inexpensive cure for catarrh. A few applications cure itching, sweaty feet and remove corns. Fine for croup or sore throat. Unequalled for burns, cuts, etc. Plex (10c) is the biggest household bargain you were ever offered. Your druggist has it, or can easily get it for you.

cause typhoid, and in the event of that discovery, the source of the water supply will be condemned, and no person will be permitted to use water from it. The local officers also will be instructed to see that the wastes from typhoid sick rooms are so disposed of that they will not contaminate any water supply source. All sources condemned will be finally shut up, as the laboratory holds that any well contaminated by the bacilli can not be cleaned so as to make it safe.

TOO KEEP THE HOUSE COOL

Now that the hot weather has arrived the good housewife realizes that everything must be done to keep the house as cool as possible, and she has learned to do it scientifically. She airs out the whole place before the sun is high, and then closes it up for the day, thus securely keeping in the cool air of early morning. In a city where brick and stone make the heat of midday particularly depressing, it is important to do this, but unfortunately most of the houses do not have blinds or other means of shutting out the sun.

Country houses with blinds may however, be kept delightfully cool or even the hottest of "dog days," and, as many families are beginning to flock to such comfortable quarters, a few remarks on the subject may not be amiss.

After airing the house close all the blinds, but leave the windows open. The shutters in the blinds should be shut tight on the sunny side, but left partly open on the others to admit stray breezes. Toward evening all the blinds should be flung open again.

Housewives who have not found this plan satisfactory probably neglected to close the blinds until the sun has heated the atmosphere. Or they may have failed to ventilate sufficiently in the morning. If every window in the house had been thrown wide open, so that every room was filled with the cool, pure, dry air of early morning, and if the blinds had been closed before the sun became hot, the house, instead of being stuffy, would have seemed like a cool, refreshing grotto to any one coming in from the tropical outdoor air at noonday.

It is easy enough to keep a cool cellar throughout the summer if the windows in it are opened all night and closed all day. With a grating over each window there will be no trouble from prowling cats and other nuisances.

Nowhere is coolness more important than in the bedrooms, for in a hot, closed room it is impossible to sleep. The bedrooms in many country places, particularly tiny frame cottages and rambling, old-fashioned houses, have low ceilings that are close under the attic or the roof, while often the windows are not arranged so that there is a good circulation of air. If the roof is tinned it makes all the bedrooms directly beneath it particularly uncomfortable.

As an attic, if not properly ventilated, retains the heat after the sun has gone down, it should be built with opposite windows, so that a current of air may pass through its whole length over the bedroom ceiling.

The one and only room which should not be closed in the heat of day is the kitchen if one is burning wood or coal.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

Smoke FAIR PROMISE 5c Cigars.

PROPAGATION OF FLIES.

A little lesson in fly arithmetic shows the enormous spreading out of the species since Noah let a pair of the pests buzz by when passengers were being received aboard the ark. Take for example the conservative estimate of 120 eggs to the female fly, beginning the season April 15:

April 15 the over-wintering female fly lays 120 eggs.
May 1, 120 adults issue of which 60 are females.
May 10, 60 females lay 120 eggs each.
May 28, 7200 adults issue of which 3600 are females.
June 8, 3600 females lay 120 eggs each.
June 20, 432,000 adult issue, of which 216,000 are females.
June 30, 216,000 females lay 120 eggs each.
July 10, 25,920,000 adults issue, of which 12,960,000 are females.
July 19, 12,960,000 females lay 120 eggs each.
July 29, 1,555,200,000 adult issue of which 777,600,000 are females.
August 8, 777,600,000 females lay 120 eggs each.
August 18, 93,312,000,000 adult issue, of which 46,656,000,000 are females.
August 28, 46,656,000,000 females lay 120 eggs each.
Sept. 10, 5,598,720,000,000 adults issue of which 2,799,360,000,000 are females.
Some flies for one pair.
"SWAT THE FLY."

BABY'S WELFARE.

Cow's milk for calves. Mothers' milk for babies, says the State Board of Health in its monthly report. God pity the baby who cannot get Mother's milk. Out of every one hundred babies in the United States twenty-five die each year. You wouldn't take a crowbar to adjust the delicate mechanism of a watch, then why use drastic and dangerous drugs to adjust the delicate internal mechanism of a baby?

If you kiss the baby because he is "such an angel" you may make him one.

Milk stations are cheaper than hospitals and will save the lives of more babies. Why not put the baby before the window in the best room in the house and, if necessary, put the geraniums in the closed and darkened room. If sunlight and air are good for flowers why not for babies?

Throw soothing syrups to the fishes. As Dr. Holmes said, "It may be hard on the fish" but it at least will save the baby from harm.

Honest Medicines Versus Fakes

President Taft's recent message suggesting an amendment to the Pure Food and Drug law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains to day its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. F. B. Johnson & Co.

HEADACHE

Instant relief—that's the effect of Caparine upon the most severe headache, from whatever cause, whether it's overwork, biliousness, constipation, fatigue or train sickness. Caparine ends the headache and acts as a tonic, goes straight to the cause of the headache and begins removing it.

contains no opiate, morphine, antipyrine. It is compounded upon scientific principles from the purest and most carefully chosen ingredients. Get a supply—be prepared for that next headache. Convenient packages for home use or to carry in your pocket—10c and 25c—all druggists. DeKalb Drug and Chemical Company, Ltd., DeKalb, Ill.

KEEP ON SWATTING.

The general crusade over the United States against the fly is having its effect as we are now "along knee deep in June" and these pests are not nearly so thick. A great many people in and around Muncie have been destroying the breeding places of the fly and those who have not attended to it should do so at once as each fly not killed in June represents 2,080,320 in August. So it is easier to swat one fly than 2,000,000. A little coal oil spread on dump cans, cess pools, etc., is very effective.

NATURE'S WARNING

Rushville People Must Recognize and Heed it.

Kidney ills come mysteriously. But nature always warns you. Notice the kidney secretions. See is the color is unhealthy—See is the color is unhealthy—If there are settlements and sediment, Passages frequent, scanty, painful. It's time to use Doan's Kidney Pills. To ward off serious diseases. Doan's have done great work in Rushville.

W. H. Hudson, 1015 North Harrison street, Rushville, Ind., says: "I hold a high opinion of Doan's Kidney Pills, although I have never used them myself. About six years ago when living in Vernon, Ky., a member of my family was annoyed by pains across the small of the back and other symptoms of kidney complaint. At that time I heard about Doan's Kidney Pills and procured a supply. They acted just as represented and in a short time their use brought entire relief. I have unlimited faith in the curative powers of Doan's Kidney Pills and do not hesitate to give them my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

Happiest Gisl in Lincoln.

A Lincoln, Neb., girl writes, "I had been ailing for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver Aids and in three days I was able to be up and got better right along. I am the proudest girl in Lincoln to find such a good medicine." For sale by all dealers.

Your Neighbor's Experience

How you may profit by it. Take Foley Kidney Pills. Mr. J. L. Francis, 316 W. North street, Greenfield, Ind., writes: "My kidneys have given me considerable trouble for quite a while, but since using one bottle of Foley Kidney Pills, I am entirely over this most annoying complaint and once more well. My back pained me greatly, my kidney action was irregular and painful, but I am now over my trouble and thank Foley Kidney Pills for my cure." F. B. Johnson & Co.

ZEMO CURES ECZEMA, PIMPLES, DANDRUFF, PRICKLY HEAT, SUNBURN

and affords you skin comfort during the hot weather. We give you three reasons why we recommend ZEMO for skin trouble.
1st. ZEMO is a clean scientific, liquid preparation—pleasant and agreeable to use.
2d. ZEMO sets up itching at once and allays the irritation and promptly soothes and heals the skin.
3rd. ZEMO gives universal satisfaction and is recognized by skin specialists as the standard remedy for all skin and scalp troubles.
If you wish to try a bottle of ZEMO for yourself or one of your children and it does not do exactly what we say, we will return your money without quibble or question.
F. E. Wolcott, Druggist.

Coming Through With Something ---Good---

NONE GENUINE WITHOUT THIS SIGNATURE

COUNTY NEWS

Glenwood.

Many of the people attended the baptizing at the Falls, four miles southeast of here. The Falls are so called because of the constant fall in the little creek, where the stone was crushed last summer for the building of the county line pike.

Messrs Jones and Stamm secured the contract of building the school house in the Moffit district in Fairview township, Fayette county.

If Dr. Hurty should visit our school at the present time he would be compelled to condemn it as to sanitation. We hope he will come.

We understand that a Mr. Fisher of Laurel has been trying to secure the principalship of the school here. Nothing would please the patrons any better than that. Mr. Martin can do nothing that will narrow the breach caused by the refusing to hire Miss Trobaugh, the primary teacher, again this winter more than the securing Mr. Fisher as principal.

Ed Turner will celebrate the Fourth of July at home with his family.

Mr. and Mrs. T. C. Rees are get-

ting ready to move to Indianapolis, where they have bought property.

Two couples were loitering around the traction station Saturday night. They belong to Connersville.

T. A. Reed attended the funeral services of the late Harry Mitchell at the Capitol City. He belonged to eight secret orders. The P. O. S. of A. had charge of the ceremonies. Harry Mitchell was beloved by all who knew him. He was a coal merchant and many tons of coal has he given to the poor and needy. His wife and four children and many friends are left to mourn his loss. We extend our sincere sympathy to them.

Mrs. Daniel Laughlin is improving slowly but surely.

Messrs. Arnold and Chew attended the ball games at Indianapolis the last of the week.

Threshing will begin tomorrow.

Rev. Clyde S. Black preached the sermon on dancing last Sunday evening which was pointed and practical.

Everyone should celebrate the 4th of July this year.

Rev. and Mrs. Clyde S. Black sang a very beautiful duet at the close of the preaching services on Sunday morning.

In and Around Fairview.

Mrs. Louise Lewis of Rushville was the guest of her sister, Mrs. Thomas Powell, Wednesday.

Mrs. Rebecca Brasher and daughter, Mrs. Miles Daubenspeck were in Connersville Thursday.

Mrs. Jess Stevens and daughters, Margaret and Elizabeth, of Richmond came Friday for a visit with her parents, Mr. and Mrs. John Dickey.

Mrs. William Lewis and Mrs. Lavina Jackson were the guest of Mrs. Jane Vanbuskirk of Falmouth Friday.

The Ladies Aid Society of the Fairview Christian church held a business meeting at the church Friday afternoon.

Mrs. Frank Huddleson of Mays was the guest of her parents, Mr. and Mrs. Wm. Higley Friday.

Mrs. John Higley transacted business in Connersville Saturday.

Mrs. Frank Adams and daughter Vernice of Columbus, Ind., who was visiting Mrs. Roy Rich returned to her home Saturday.

Mr. and Mrs. Hubert Gregory of Rushville were the guests of Mr. and Mrs. Charles Cregar Sunday.

Clyde Allison of Orange was the guest of his parents, Mr. and Mrs. James Allison Sunday.

Mr. John McElfresh and family was the guest of his brother Ellie at Orange Sunday.

Carthage.

Mrs. Margaret Morton was here Saturday on her way to Winona Lake where she and her sister Miss Edith Hiner of Rushville has rented the Illinois or Bilby Sunday Cottage for the summer.

Rupert Stanley was the guest of Orville Wright of Spiceland Friday and Saturday.

Mrs. A. B. Norris returned from a two week's stay at Martinsville.

Miss Mattie Clark and Miss Harriett Rawls went to Indianapolis Sunday to spend the Fourth with Mr. and Mrs. John Clark and family.

Miss Ramona Norris was in Rushville Monday.

Mr. A. B. Irvin, Mr. Heeb and Ben Sparks and the Misses Marie Crosby and Miss Lowe, Mr. and Mrs. John Blackledge, Allen and Miss Ethel Blackledge, Mr. and Mrs. Percy Walker, Mr. and Mrs. Ed Crocby of Rushville and Mr. and Mrs. Van Hood, Mr. and Mrs. Otto McCarty, Mr. and Mrs. M. F. Lovett and Mr. and Mrs. R. H. Hill motored to Brown county Sunday. Among the interesting places they visited was the log cabin jail at Nashville and court house, they returned by the way of Columbus.

Miss May Mench and Miss Fanny Rapp of Hamilton, Ohio, came Sunday to be the guests of Mr. and Mrs. W. H. Sharer until Wednesday.

Miss Lon Hill was in New Castle last Saturday.

Miss Lillian Henley of Indianapolis and Mr. and Mrs. Robert Henley of Cincinnati are the guests of Mr. and Mrs. W. P. Henley.

Miss Katherine Newsom was the guest of Miss Belma Clark of Rushville from Saturday until Sunday.

Mr. and Mrs. H. H. Henley went to New Augusta Friday to visit for a few days with Adam Bush.

Lowell Henley and Ross Kennedy were the guests of Mr. and Mrs. Leonard Clark of Rushville Sunday.

The Misses Florence Miner and Effie Narvell were in Rushville Monday.

Miss Amelia Steele of Knights-town was the guest of Miss Ethel Coffin last week.

Mr. and Mrs. Will Horton of Rushville and Mr. and Mrs. Sylvia Hodge of Homer are the guests of Mr. and Mrs. Ed Adkins Sunday.

Mrs. Pansy Musselman and daughter Dorothy May, and Miss June McClure of Indianapolis are the guests of Mr. and Mrs. Forrest Kennedy.

Miss Sue Hetherington and Miss McClay, Mr. and Mrs. Geo. Wall and daughter Miss Ruth, of Piqua, Ohio, Mr. and Mrs. Thomas Wall and son Charles, and Mrs. Mary C. Wall and Miss Mary Wall and Leslie Wall of Marion came Saturday to spend the Fourth. For the past years the Walls have picnicked here on the Fourth, but this year their reunion will be held with Mr. and Mrs. John Wall and daughters and Mrs. Flo Wall and sons.

New Salem.

Clyde Farrington of Indianapolis spent Sunday with his parents, Mr. and Mrs. John Farrington.

Miss Edith Williams of Laurel is visiting, Mr. and Mrs. Wm. Taylor.

Miss Irene Butcher took dinner with Misses Fannie and Jessie Mock Sunday.

Mr. and James Farrington of Illinois are spending the Fourth with his parents, Mr. and Mrs. John Farrington.

Mary Louise Miller attended the T. C. C. at the home of Mrs. Lucy Meredith Monday afternoon.

Mr. and Mrs. Ernest Morris of Indianapolis are spending a few days with relatives at this place.

M. L. Stewart and family took dinner with Mr. and Mrs. Ed. Morris, Sunday.

The I. C. girls will hold a picnic in Reeves' woods the Fourth. Each one is to bring a guest.

Thos. Bever is the possessor of a five passenger touring car.

Pi King and Earl Bever have also purchased new machines.

Notice of Sale of Real Estate.

Notice is hereby given that the undersigned, trustee of Rushville township, will on Saturday, the 8th day of July, 1911, at his office in the city of Rushville, Ind., offer for sale the school property known as District No. 8, or the William Posey school, located on the Indianapolis Pike, about three miles west of Rushville, Ind. Said school property consists of a brick school house and about three fourths of an acre of ground, in the northwest quarter of Sec. 34, Rushville township.

Terms of sale. Cash on day of sale. JAMES V. YOUNG, Trustee.

Watch Your Kidney.

Foley Kidney Pills are composed of ingredients specially selected for their corrective, healing, tonic, and stimulating effect upon the kidneys, bladder and urinary passages. They are the antiseptic, antilithic uric acid solvent. For sale by F. B. Johnson.

Kidney Diseases are Curable

under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. F. B. Johnson.

Smoke FAIR PROMISE 5c Cigars.

JULIA MARLOWE

Popular Actress Forced by Heat to Take a Rest

HAD TO QUIT

Julia Marlowe Made Ill Because of Heat.

New York, July 5.—The engagement of E. H. Sothorn and Miss Julia Marlowe at the Broadway theatre in Shakespearean repertoire has been discontinued. Miss Marlowe suffered so from the heat at the performance of "Macbeth" on Monday night that it was only with the greatest difficulty and utmost effort that she finished the performance at all. Her doctor forbade her the continuation of the engagement, and her condition was such as to make any further performances impossible for the present.

ITALIAN WOMAN DIED OF CHOLERA

People Exposed to Infection Will Be Watched.

New York, July 5.—Mrs. Annie Nattie, an Italian woman, age thirty, who was a passenger on the Duca Dagli Abruzzi, and was detained at quarantine until Thursday, when she was released with the other passengers, and with her two children, rejoined her husband at his home in Brooklyn, died of cholera on Monday night at the quarantine hospital, to which she had been taken by order of Health Officer Doty.

Several persons were exposed to the infection while the woman was at the Myrtle avenue, Brooklyn, house, and a close watch will be kept on these for several days. The woman's husband keeps a little coal and wood store in the basement of the house.

JUDGE TAYLOR HAS NEW RULES

Interesting Juvenile Court Made More Effective.

WORK TO BE SYSTEMATIZED

The First Three Days of the Week Have Been Set Aside For Cases Involving Adults, but Juvenile Cases Receive First Attention.

Indianapolis, July 5.—As the result of the adoption of a new set of rules for the juvenile court, which have been made by Judge Newton M. Taylor, it is expected that the business of this court will be systematized and that its work will be made more effective. The change in rules has been made necessary partly because of the great increase in business during the last few years.

For the first time since the court was established in 1903 there will be two complete sets of dockets—one for the children's investigations and trials and the other for the investigations and trials involving adults. In these dockets will be entered every case that comes before the court.

In order to arrive at a complete understanding with the different officials of the court, Judge Taylor has outlined the duties of each.

The first three days of the week have been set aside for cases involving adults. Judge Taylor says, however, that the court is essentially for children, and that juvenile cases will receive first attention.

NERVY WOMAN

Shoots Burglar Who Attempted to Enter Her Home.

Noblesville, Ind., July 5.—A large, well-dressed man is in hiding somewhere in Hamilton county and nursing a badly injured foot, the result of being shot while attempting to gain entrance to the farm home of W. A. Colburn near this city. He was shot in the foot by Mrs. Colburn, wife of one of the wealthiest farmers of the county, and daughter of Henry Alfrey, a Connersville lumberman.

The police tracked the stranger by a trail of blood for a mile and a half. A short distance after leaving the house the burglar's bloody shoes were found by the roadside.

A horse and buggy was stolen from A. F. Brown, a farmer, and it is believed the burglar made his escape in the buggy.

Found Old Cannon.

Huntington, Ind., July 5.—Fishermen on the Wabash river near Brebaugh's island, found an old cannon which had apparently been in the water for a century or more. It was rusted so badly that it was only after a careful examination they discovered its nature. The field piece was a small one of ancient design. It is believed here that the field piece was left behind in the flight of Captain LaBalle's troops back to Vincennes, following the massacre at Aboit creek.

Old Veteran Dying.

Elwood, Ind., July 5.—Daniel Clymer, aged eighty-five, who has lived on a farm six miles northeast of Elwood continuously for sixty-five years, except when in the war of 1861-65, is reported to be rapidly sinking and can not possibly recover. Clymer was a Union spy and laid in the water for three days and nights to keep from being captured by the enemy. From this experience he returned home an invalid.

Wrecked Threshing Machine.

Mt. Vernon, Ind., July 5.—A separator belonging to Walter Fennel, Izay Weir and Frank Weir, was wrecked while threshing wheat on the Charles Weir place, north of this city. When the machine was started it began pounding and four large pieces of iron were found in it. One piece of iron had a note tied to it that read: "Take good care of this machine. We want to use it next year."

Indiana Man Murdered.

Noblesville, Ind., July 5.—A telegram received in this city from Buffalo, N. Y., announced the murder of Reuben Benjamin Pooler by two laborers. He was known in Indiana as Benjamin Pooler, and for many years was assistant superintendent of the Central Indiana railroad under J. A. Leonard. While connected with this and other railroads in central Indiana he lived in this city.

Both Were Frightened.

Greenfield, Ind., July 5.—While driving a mow on his farm, near this city, George Bussell had an experience with a big blue racer which wrapped itself around his leg, presumably in escaping from the sickle. The snake appeared to be as frightened as the man and escaped into the uncut hay. Bussell was so frightened he could not proceed with his work for several minutes.

Shot Friend by Mistake.

Columbus, Ind., July 5.—Ora Oliver fifteen, Hartsville, was shot by Marriott Clapp, fifteen, while the two were squirrel hunting. It was accidental. Oliver is in a critical condition from a charge of buckshot in his breast.

CULBERSON OF TEXAS

Progressive Democrat Who Is Opposing Bailey and Lorimer

STORY OF SHYLOCK WAS OBJECTIONABLE

This and Certain Songs Rabbis Dislike.

St. Paul, Minn., July 5.—Urging the elimination from the public schools of the country of Shakespeare's Merchant of Venice as a text book because it tended toward ridicule of the Jewish race, the Central Conference of Jewish Rabbis, in session in St. Paul, also favored keeping off the American stage all productions caricaturing the race. Reports were read assuring the co-operation of Klaw and Erlanger and the Shuberts.

The conference also recommended omitting from the song books used in public schools such hymns as "Jesus, Lover of My Soul," "Onward, Christian soldier," and "All Hail the Power of Jesus' Name," on the ground that they are objectionable to Jewish children. The constitutions of Arizona and New Mexico are endorsed as examples for other states because from them is eliminated all reference to sectarianism.

Italian Killed by Countryman.

Fort Wayne, Ind., July 5.—Paul Yonia, thirty years old, an Italian, was shot and instantly killed in the room of Raffaello Mastriano, a fellow-countryman in Melita street, shortly after five o'clock Monday. Mastriano fled. There were no witnesses to the shooting, but circumstances indicate that it occurred when Yonia called at Mastriano's rooming house to protest against the attentions of the young man to a fifteen year old niece of Yonia.

Good Supply of Quail.

Richmond, Ind., July 5.—Already the effects of protecting the quail can be seen in Dalton township, which became a state game preserve about a year ago. There was not a quail killed in the township last fall or winter, and as a result the farmers say that the birds are more numerous this summer than they have ever been. Protection under the game preserve law will continue four years longer.

Had to Use Straw.

Huntington, Ind., July 5.—Otto Smith, nineteen, is taking nourishment through a straw. Smith was put in condition for the feat by Merrill Fisher. Fisher first broke Smith's jaw in two places, then knocked out two front teeth for the straw. Smith walked off with Fisher's best girl, and Fisher laid for him in a dark road on a muddy night.

Finding Pearls.

Jeffersonville, Ind., July 5.—Mussel fishing is the prevailing industry along the Ohio river above this city, and not less than one hundred and fifty men, women and children are now employed in the industry between Bethlehem and Madison, while others are engaged below Bethlehem as far as Utica, which is a busy center for the fisherman.

WEATHER EVERYWHERE

Observations of United States weather bureaus taken at 8 p. m. yesterday follow:

	Temp.	Weather.
New York....	84	Clear
Boston.....	88	Cloudy
Denver.....	84	Cloudy
San Francisco..	58	Cloudy

Taft Speaks on Reciprocity.

The speech of President Taft at the Marion Club banquet in Indianapolis, confined to a discussion of the reciprocity treaty with Canada, is regarded as one of the most important ones ever delivered by him on that subject. The following are a few of his most salient arguments:

It is my judgment that the reciprocity agreement will not reduce the cost of living. It will, however, steady prices by enlarging the reservoir of supplies for those things that are raised in both countries and it will make more remote the possibility of cornering commodities and extorting excessive prices for them from the public.

The truth is, that when the complaint made on behalf of the farmer is analyzed, it will be found to be limited to an argument that by the admission of free wheat into the United States the price of wheat will be reduced 10 cents a bushel. The answer to this argument is that the price of wheat in the United States and in Canada both is ultimately fixed by the price of wheat in the world.

The more barrels of flour a mill can grind the less is the cost of production per barrel. The present limitation upon the (United States') mills' production is a lack of sufficient wheat of needed grades and quality.

These smaller farmers—and their number is large and constantly increasing—will be benefited by the greater measure of uniformity in cost and assured regularity of supply through reciprocity.

Indiana consumers will benefit by the remission of duties on food products and by the remission of duties on fish, and they will share in the advantages of the \$1,600,000 remission of duties on the classes of lumber which enter into home buildings, as well as by free entry of gypsum, which is a constituent element in cement, that is now so largely used in building construction.

"Swat the Fly."

America's summer problem is the housefly and how to exterminate it, says the Huntington Herald. If it were merely an annoying insect the problem could be contaminated with equanimity. But the element of danger to health makes it a serious one and one which we cannot lightly dismiss.

A large part of the public still looks upon the fly with amusement or apathy or does not consider it at all. Huntington is behind in its ordinances concerning the disposal of garbage and manures. Its laws are old and inadequate. But, such as they are, if the public regarded them they might do much to prevent the breeding of disease by means of the fly. In thousands of homes open garbage pails are still used. Every day when garbage is to be collected thousands of exposed receptacles, many of them filthy, broken and uncovered, may be seen waiting on the walks for the collector's visit. Around these cans and pails on a hot day thousands of flies collect, to then fly off on their visits to screenless homes.

It needs not be repeated here, but the neglect of the laws of common decency on the part of Huntington citizens is disgraceful. Nor is this neglect confined to what is called "the poorer districts."

There needs an awakening of the civic conscience in this matter, primitive as it may appear to be. Improvement associations should spread the gospel of cleanliness into every street and alley. Personal appeals to self-respect and decency should be made when other arguments fail. The precincts of each ward should vie with each other in setting houses and yards in order.

To the prevailing sight of closed church doors during hot weather, with the parsons mostly summering at

cool resorts, it is commonly remarked, and with much force, that the devil never takes a vacation.

At the same time, when the youngsters are driven up to Sunday school right through the summer, at a period which the day school recognizes as rest time, it takes a good many picnics and Christmas trees to wipe out inner resentment at conservative religious high brows.

When the small boy remarked that "We have a very kind minister at our church, who preaches short sermons on hot Sundays," the old folks laughed, but he had really hit on a profound truth.

The Episcopal, Roman Catholic, and many individual churches in other denominations, are apt to keep open through the summer, without nagging people into the pews if they don't feel like going. Thereby the constant readiness of the church to serve without officiousness is made apparent. And to many the cool silence of a worshipful service is more restful than the speed of the motor or the jangling tumult of the bleachers.

The season for summer vacations and camping parties being at hand, a timely warning to summer campers and sojourns at summer resorts will not come amiss. Living in the open is in itself not proof against disease; otherwise Thoreau and other lovers of nature would not have died of tuberculosis. Sanitary precautions are still necessary, no matter how lovely and picturesque the country spot that is chosen for a rest. The sewerage must be good and the drinking water must be pure, else the germs of typhoid fever and malaria get into the system and later do their serious, perhaps deadly, work. The water of the streams and lakes is no longer of its original purity. This fact is demonstrated by the continuous effort of communities to protect themselves from the heedlessness or ignorance of others and the manifest results of careless outdoor life. Go into the country for a season, if you can, but do not neglect the precautions that you take, or are taken for you, to protect your health while in the city.

The big fellows are likely to swallow each other. The announcement is made that the Rothschilds of England are after the Rockefeller of America. In other words they propose to enter the American oil fields and give the Standard a race for the business. Investments have already been commenced in California, and all because the Rockefellers violated a "gentlemen's agreement" and invaded the oil fields of Europe. Each side seems ready to spend its money.

So long as officials allow men to be charged in affidavits under fictitious names, just so long will newspapers be placed in embarrassing positions so that they are liable to be unjustly criticized. Newspapers can not make charges against most anyone without something to back up their assertions.

This is the season when it pays to exercise some measure of precaution against the heat. Temperature such as those now have are a source of real danger if recklessly encountered. Unusual exposure is not without its danger, and intemperance of habit in any regard adds immeasurably to the dangers of the heat.

While Mr. Taft was talking at Yale Commencement about the Supreme Court decision, the undergraduates were anxiously wondering about the decisions of the referee in the coming race with Harvard.

Had they had such banquets for the Taft silver wedding as for the English coronation, Congress, which lays so many things on the table would have lain under the table for several days.

How those 11 Harvard Bachelors of Arts who are to become "journalists," will feel when the city editor asks them to walk three miles into the suburbs and ask Mrs. Hardup where she spends the week-end!

Representative Sabbath wants the purchase of foreign titles by our girls investigated. We favor having the titles listed on the stock exchange, instead of having them bought and sold on the curb.

Senator Heyburn says whatever we got from England we took with bayonets. Judging by the prices

paid in the matrimonial market for titles, it would be slangy but accurate to say we took a good deal of it with rocks.

According to the census reports the increase in Indiana crops in the last ten years is only 3.3 per cent.

The sagacious newly married couple will carefully sweep up the rice offered by attentive friends and offer it to them in the form of a rice pudding at some future social function.

Over in England they crown a man king on account of his birth. Here they crown him on account of the money he squeezed out of us for some necessary of life.

It has been ascertained by the interstate commerce commission that 20,000,000 gallons of liquor are annually shipped by express from mail order houses to consumers in "dry" states.

In view of the head-on locomotive collision at the Indianapolis Fourth celebration, Mr. Taft would enhance his popularity by confining his speech to the historic words, "Let her go Smith."

Of course the fact may have escaped the notice of the Republican, but up to date, under the pardoning regime of our illustrious constitution-making governor, no female prisoner has been among the pardoned myriad of "lifers" and others serving more modest sentences for various crimes, says the Columbus Republican. It may be no politician has interested himself in any unfortunate member of the gentler sex who may be "doing time," and it may be the women prisoners are such hardened criminals the governor hesitates to turn any of them loose on the community. Discriminatory action of this sort at least speaks ill for the governor's gallantry. If women had votes in Indiana it might be different.

A correspondent of the Indianapolis Star declares that "history is repeating itself again. We shall have another democratic administration and then the old Republican party—not the Roosevelt-Taft fiasco, but the party of Lincoln, Blaine and McKinley headed by a former senator, the only man who could draw a crowd in Ohio during the last campaign—will come back." We don't recall "who drew the crowd," distinctly, but will doubtless be able to identify him by 1916, and shouldn't be at all surprised if he proved to be Charles Warren Fairbanks. It is not of record that Mr. Fairbanks has reneged upon any of the principles his party has stood for in the past, and he is a safe, sane and intelligent leader.—Huntington Times.

EDITORIALETTES.

And now for chautauqua.

Got your chautauqua tent arranged for yet?

Suppose President Taft feels that there is some class to these Hoosiers by this time.

While they were sitting there side by side, would it not have been terrible for Taft to strike a match to blow up Marshall's presidential boom?

But that would have been an insane celebration.

You have nothing on us today. Our underwear is sticking, too.

If the temperature soars much higher they will have to get out a later edition of thermometers. Snow?

New Castle just can't sit by and be excelled at anything and now they are going after "Billy" Sunday up there. It is a safe wager that the veteran ball player will put a few straight ones over for some of the "Rose City" batters.

"Billy" King will try the big and boisterous city for his next Fourth. No more quiet days in the hay field for him on the nation's birthday.

And then, there's Young Green who will also celebrate his birthday on the Fourth, too.

FROM THE SUBURBS.

Morgan's Ambassador.

The king's guests ate from a service containing eight tons of gold. The king and queen were determined to make John Hays Hammonds feel at home.—Louisville Courier-Journal.

Not in Limelight.

The Main Thing.

Indianapolis has adopted a municipal flag. That's a poor substitute for a baseball pennant.—Ft. Worth Record.

Immaterial.

John W. Gates appears to be one of those defiant persons who do not care whether they are called mal-factors of wealth or muckrakers.—Washington Star.

The Real Law.

Of course the express companies violate postal laws. But the post-office department never, by any chance, violates the express trust's laws.—Chicago Journal.

Unprecedented.

Portugal has got a new president and without a revolution. This would seem to prove the establishment of a stable republic.—Pittsburg Dispatch.

Will Stick, No Doubt.

Well, it's up to the senate again, as usual.—Washington Post.

Why Seek Special Privileges?

It has been charged in the house that the city of Washington is an easy prey to public service corporations. Why not? Washington can not hope to be an exception to such a fundamental national custom.—Philadelphia North American.

Not His First Appearance.

The fact that Jack Johnson was presented at court soon after his arrival in London is not very remarkable. Jack has been presented at a good many courts in this country.—Kansas City Journal.

Quite Fitting.

While Uncle Sam is about it, he might as well put the button trust in the hole.—Birmingham News.

Pay Telephone Toll.

Don't overlook to pay your telephone toll before July 12, if you wish to avoid paying 15 cents extra for collection. No notice will be given by telephone. W. T. JACKSON, Secretary.

Winona Lake Notice.

During the summer season we have engaged the Illinois or Billy Sunday Cottage at Winona Lake and will be glad to see all of our Rushville friends.

SOME people think we've gone crazy over this Big Ben proposition. We'll tell you—we've been in the jewelry business for 45 years. In those 45 years we've handled about every kind of alarm clock made, but we never have seen one that can touch Big Ben for looks, accuracy or strength.

We run and regulate every one we sell. If you have him cleaned every other year there is no telling how long he will last.—we keep him in the window; look at him when you walk by.

This is the clock they are advertising in the big magazines.

Wm B. Poe & Son

—Merle Conner of Shelbyville visited friends in this city yesterday evening.

—Frank Lyons returned to Chicago last evening after a few days' visit here.

—Louis Neutzenhelzer has gone to Marietta, Ohio, for a few days' stay on business.

—Ben Norris of Carthage passed through here this morning enroute to Indianapolis.

—Mrs. Elizabeth McKinney of Piqua, Ohio, is the guest of friends and relatives here.

—William Buckler, who has been quite ill at his home in Water street, was not so well today.

—Miss Marie Stafford of Shelbyville is the guest of Miss Helen Monjar in West Second street.

—Mrs. Nelle Cochrell of this city has returned from a brief visit with New Castle relatives.

—Mrs. T. J. William and children of Indianapolis are the guests of her mother, Mrs. Emily Coleman.

—Miss Alice Laughlin is spending her vacation at Indianapolis the guest of relatives and friends.

—The Misses Pet, Dove, Mae and Laura Mededith and Margaret Hextless are the guests of L. G. Hall in Mays.

—The Misses Helen Scudder and Nettie Clark, Byron Cowing and Robert Humes motored to Knightstown the Fourth.

—Miss Lavonne Winship was the guest of her sister, Mrs. Blanche Tompkins in Milroy from Saturday until today.

—Mr. and Mrs. Selman Webb and niece, Mary Louise Frazer of Noblesville spent the Fourth with Mr. and Mrs. James Gregg.

—The Misses Alma and Viola Hackman and Elsie Thornburg of this city spent the Fourth at St. Mary's, Ohio.

—Mrs. Margaret Scanlan left yesterday for an extended visit with Mr. and Mrs. Will Martin and family in Joplin, Mo.

—Mrs. L. L. Allen of Atlanta, Ga., who has been visiting here, left this morning for Noblesville, for a visit before returning home.

—Prof. and Mrs. J. H. Scholl and family were the guests of Mr. and Mrs. Fred Miller in Connorsville on the Fourth of July.

—Mr. and Mrs. A. C. Brown attended the Greensburg chautauqua yesterday. This is the first assembly that city ever held.

—Mr. and Mrs. Jesse Shelton and family of Manilla spent the Fourth as guests of Mr. and Mrs. Bert Stafford in Shelbyville.

—Mr. and Mrs. Luke Thompson and children of Washington, D. C., came today for a visit with Mrs. Emily Coleman and family.

—Greenfield Reporter: Miss Eva Ordway has returned from Rushville where she has had a position as milliner. She will spend the summer here.

—The Misses Kate and Martha Gochring of this city were the guests of their brother, Zenophon Gochring and wife in New Castle over the Fourth.

—J. W. Leonard of this city is in Cincinnati, Ohio, visiting friends and relatives. He expects to go to Springfield, Ohio, for a short time, then will join the Adams Bros. Construction Company at Zanesville, O.

—Mrs. Fred Beale returned this morning from a four days' trip to Detroit, Mich., and other points of interest. She was accompanied by several New Castle relatives, including her mother and brother, Warner Schmidt.

—Miss Hazel Kiser and Garland Newkirk of Sexton and Orville Porter of Indianapolis have returned to their homes from Richmond, where they visited Miss Myra Newkirk and attended a picnic Saturday at Jackson Park, given by the young people of the Raleigh neighborhood.

Milroy Press: E. A. Richey and wife moved their household goods to Rushville Monday, where they will live in North Arthur street. Mr. Richey has a position with the Case Lumber company.

SOCIETY NEWS

Mrs. James Alsop was pleasantly surprised Sunday at her home east of the city by a number of relatives and friends, the occasion being her forty-ninth birthday anniversary. Those present were Mr. and Mrs. A. C. Sharp and sons, Laverne and Alfred, Mr. and Mrs. Fred Bell, son Russell and daughter, Margaret, Mr. and Mrs. Dalton Powell, Mr. and Mrs. Miller Whitton and Mrs. Nancy Whitton, Mr. and Mrs. Claude Cambern and Miss Rue Whitton of this city, and Mr. and Mrs. Granville Funderberg of Coalfire, Alabama.

* * *

A most delightful Fourth was spent at the old Burnside homestead in Shelby county by a party of family relations, numbering about thirty. Among them were Dr. W. H. Smith and wife, pioneers of Rushville; Mrs. J. E. Fish and Russell Fish, Mr. and Mrs. J. C. Smith and John Sloan Smith of Indianapolis; Mr. and Mrs. Will Pearsey and sons, Hale and Horace, Mr. and Mrs. John H. Frazer and daughter Florence, Mr. and Mrs. Walter E. Smith, all of Rushville; Lynn Burnside and family, Mr. and Mrs. James Carson, Conwell and Mary Winifred Carson of Burnside Station. Dinner and supper was spread on the lawn and there was nothing lacking on the menu from corn-pone to ices. A jolly time in the old swimming hole was had between meals. The day was too short as well as too warm for all the fun.

AMUSEMENTS

The Vaudet will feature Arnold the Great in vaudeville tonight. Arnold is said to have a good comedy magic act, which is very clever. Arnold has been creating a sensation wherever he has appeared. The first film is a Powers drama, "A Western Ruse." It is said to be a great western picture and has many sensational incidents. The other picture is a Yankee drama, "Condemned to Death." Leon Maxey will sing a new song.

The Portola will have the usual change of program tonight. On Friday and Saturday nights at this theater will be shown the famous play, "Faust." The production is in two reels and is said to be a masterpiece in motion pictures. "Faust" is acted by the Pathe company and both reels are hand-colored adding much to the beauty of the famous play. Miss Maude Schmidt will play special music on these two nights. The music is taken from the grand opera and is expected to be one of the features.

FOURTH, HIS JONAH DAY

"Billy" King Celebrates Day in Field With Bad Results.

While celebrating the Fourth of July in a perfectly safe and sane manner in a hay field on his farm yesterday afternoon, "Billy" King, ex-county sheriff and secretary of the Rush County Fair Association suffered a very painful injury and he is now convinced that the safe and sane agitation is a great fiasco. A storm was impending and Mr. King was hurrying to get as much hay into the mow as possible. In his anxiety to save the hay from a wetting, he stuck the fore finger of his right hand into the cog wheel on the hay loader. It was badly lacerated and hurt, causing him much pain.

LOCAL NEWS

Dr. Frank M. Sparks has purchased a new five passenger touring car.

Services preparatory for communion will be held Thursday and Friday evenings at the First Presbyterian church.

Robert Stewart, son of the Rev. and Mrs. Stewart of Milroy, who was operated on for appendicitis at the Sexton sanatorium recently, is improving.

Hygiene to be Taught In All Indiana Schools

In pursuance with instructions issued by the state board of education the state board of health has begun the compilation of a pamphlet which will be used in the public schools in connection with the study of physiology and which will teach the rules of practical hygiene.

The pamphlet will be issued at the expense of the state and will include the following subjects:

Hygiene in general, air water and food as the three essentials of life, breathing and air, thirst and drink, hunger and food, hygiene of nutrition, hygiene of elimination, hygiene of sight, hygiene of hearing, hygiene of the teeth, hygiene of the nose and throat, dress, cleanliness and habits, stimulants and narcotics, school hygiene, hygiene of the home, microbes

and infectious diseases, infection carriers, measles, scarletina, diphtheria, typhoid fever, tuberculosis, smallpox and vaccination, other infectious diseases, health and immunity, moral hygiene and what to do in emergencies.

The plan of the state board of education is an innovation which has been much needed in the state schools for years. It is a well known fact to physicians that if hygiene were taught in the schools and made a compulsory subject that school children would be more able to take care of themselves and to avoid disease. In addition to the rules governing hygiene the pamphlet will contain state laws relative to the subject and the rules of the state board of health concerning the prevention of infectious diseases.

In all schools in the state next year blanks will be distributed for the report of examination of pupils on the subject of hygiene and these blanks shall constitute the basis on which the study of the subject will be based for the pupils remaining years in school.

The following rules will be effective:

Rule 1. It shall be the duty of the school physician to examine all school children upon their first admission to school. This examination shall take note of said children as to cleanliness, obvious physical defects, as physical deformities, condition of nose and throat and teeth, ear discharges, squints, general fitness for school life and previous medical history. Measurement of height and weight shall be recorded. This first examination shall be conducted in the presence of the parents or family physician, if so desired provided that any child presenting a certificate of examination as provided in the medical inspection law, shall be exempt from the school physician examination. A permanent record of all such examinations shall be kept on blanks according to form prescribed by the

state board of education and state board of health. Such records to be subject to inspection by the public only on an order from the school physician.

Rule 2. It shall be the duty of the school physician to make an examination of all children referred to him by teachers. Such examination to determine whether or not the child should be excluded from school. Such examination shall be made in the presence of the parents if so desired. In all matters pertaining to exclusion from school the decision of the school physician shall be final. A record shall be kept of all such examinations on form of board of education, a copy of which shall be furnished the parents or guardian of said children.

Rule 3. It shall be the duty of the school physician to make a general examination of all the children in the public schools at least once a year for any defect or disability tending to interfere with their school work, and a special examination of children (a) who show signs of being in ill health or of suffering from infectious contagious diseases, and (b) who are returning to school after absence on account of illness or from unknown cause.

Rule 4. It shall be the duty of the school physician to make such examination of teachers, janitors and school buildings as, in his opinion, the protection of the health of the pupils may require.

The teachers in all the public and parochial schools of the state of Indiana shall test the sight and hearing of all school children under their charge, twice in each school year, at the opening of school and after the holiday vacation. The sight test shall be made by the use of the Snellen's test chart, and the hearing shall be the watch test or the whisper test, preferably the whisper test. An individual record shall be kept of said test and whenever a defect of vision or hearing is noted, the case shall be reported to the school physician. Teachers and school officials shall rigorously exclude from school all children specified in any notice of exclusion issued either by the school physician or by the local health officer until said children shall present a certificate of admission from the school physician or the health officer.

Tests should be made as early in the school year as possible, preferably in September.

Tests should be made as nearly as possible under the same conditions preferably in well lighted rooms, in the early part of the day.

The testing shall be done by the teacher of the class, and supervised by the principal, to see that the conditions of the tests are as uniform as possible for the different classes.

Children wearing glasses shall be tested with the glasses on, and if found normal, shall be so recorded.

Record as defective only those whose vision is 10-20 or less in either eye.

Report to the state board of education the whole number of children examined, and the number found defective according to the standard given in No. 5.

In speaking of the rules which have been prepared and on the action of the board of education. Dr. Frank H. Green, county health commissioner, said that he believed that it was one of the most progressive moves which has been made in the state for years. The instruction of children in hygiene, he said, will tend to make the child stronger, cleaner and less apt to contract infectious or contagious diseases.

Dr. Green said that he had received no official word from the state department in regard to the matter as yet, but expected to at an early date and at that time he will take up the matter with County Superintendent George.

* POINTERS FOR MOTORISTS. *

The action of dampness on the rubber part of an automobile tire is insignificant, but its effect on the canvas is serious.

It is an unquestioned fact that cotton thread and all other vegetable fibers of which cellulose is the basis, such as flax, jute and hemp offer a remarkable resistance to heat and temporary humidity, those atmospheric agents which are responsible for the changes in so many organic substances.

Following this line of research some experiments were made recently at a laboratory during which a piece of cotton fabric was exposed to the action of sun and rain for a month in the open air. While this fabric did not lose more than 2 per cent, of its initial strength, a piece of calico, after being wet through and dried in front of a fire more than twenty times lost only three per cent.

When the fabric was left in a moist atmosphere, such as on the floor of a damp cellar, for example, it was not long before spots and stains made their appearance. Such stains denoted the presence of a minute destructive growths or tiny mushroom organisms, the action of which reduced the fabric to mould. The same is true of wall paper hung in a damp room. Eventually the paper will fall from the walls in the form of mould and dust.

The application of these experiments to automobile tires is easily followed.

Sometimes an envelope will blow out suddenly, perhaps when the car is being used for the first time in the Spring. The cause is weakness resulting from the decay of the canvas in the envelope. In most cases this weakness is local, being limited to places where water has been allowed to penetrate. The position is such defective places is easy to locate by the stains left by moisture.

In order to judge of the seriousness of the damage, it must be determined whether the canvas of the tread only has been affected in which case the tire can be retreaded and restored to thoroughly serviceable condition. If the body canvas is affected as well, it becomes necessary to have the envelope completely rebuilt.

There is no way whereby this common deterioration caused by dampness can be prevented other than by storing tires in cool places that are absolutely dry.

HEAT INTERFERES.

Oats harvest has begun in Rush county and reports on the crop is that the yield will be light. The straw is short and the heads are said to be not well filled. The present heat wave is greatly interfering with both wheat threshing and oats harvest, as care must be taken to prevent heat prostrations of both men and horses.

HAIR WHITE AS SNOW

Restored to Natural Color with One Bottle of

WYETH'S SAGE AND SULPHUR HAIR REMEDY

The Only True Hair Restorer, Tonic and Rejuvenator

ALMOST A MIRACLE

My hair was as white as snow when I commenced using Wyeth's Sage and Sulphur Hair Remedy. One bottle restored my hair to its natural dark brown color. As I am now 70 years old, I consider the result most remarkable. It is an agreeable and refreshing hair dressing, keeping the hair soft and glossy, without being in the least greasy or sticky.

WM. WESTLAKE,
210 West Main Street, Rochester, N. Y.

Why hesitate when WYETH'S SAGE AND SULPHUR HAIR REMEDY is daily producing just such results?

After years of study and analysis of the hair, we have been able to produce an ideal Hair Tonic and Restorer, which contains an actual constituent of hair, combined with ingredients of recognized merit for treatment of hair and scalp diseases. It makes and keeps the scalp clean and healthy, gives life, strength and lustre to the hair, and restores faded and gray hair to natural color.

No matter how long and thick your hair is, WYETH'S SAGE AND SULPHUR HAIR REMEDY will make it longer and thicker. It will remove every trace of dandruff in a few days, stop falling in one week, and start a new growth in from one to three months.

These are facts that have been proven in scores of cases. WYETH'S SAGE AND SULPHUR HAIR REMEDY is guaranteed to do all that it is claimed to do or the price will be refunded.

**SAVE YOUR HAIR;
SAGE TEA WILL DO IT**
Dandruff, Itching Scalp and
Falling Hair Quickly
Stopped.

There is one place where baldheaded men shine, and that is in the front row seats of the theatre. If these baldheaded people had used Wyeth's Sage and Sulphur Hair Remedy in their earlier days they would not be so conspicuous now. This preparation does not plant new hair, but it does strengthen weak, dying hair, and not only brightens dull, parched hair, but gradually restores the color to faded or gray hair. It is a clean, wholesome hair dressing, which can be used daily with perfect safety. Wyeth's Sage and Sulphur is sold under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agents, Hargrove and Mullin, Druggists, Rushville, Indiana.

A GOOD TIME WITH HOOSIERS

The President Enjoyed His Indiana Visit.

HE TALKED ON RECIPROCITY

The Program at Indianapolis Was Carried Out in Detail and the Crowd Was One of the Largest Ever Assembled in Indiana's Capital.

Indianapolis, Ind., July 5.—President Taft spent his Fourth with the city of Indianapolis under a burning sun that sent the mercury up past the 105 mark on the thermometers hung outside the stores. He reviewed an hour's parade of floats, held an open hand-shaking reception for the Hoosiers; lunched with and addressed the Columbia club, a track meet, urged a sane Fourth in the teeth of open opposition in the way of cannon crackers exploding behind the grand stand which he faced, awarded prizes to the winners in the float pageant, witnessed motorcycle races, talked to a couple thousand railroad union men and saw the exhibition of two locomotives sent into each other pell-mell at a speed of some thirty miles an hour; addressed the Marion Republican club on reciprocity and barely completed his program in time to catch a train for Washington. It was one of the most strenuous days that Mr. Taft had ever been through. But despite the heat, he seemed to keep his energy and good humor up to the top notch all day long, and made a great many new friends in the Hoosier state.

While the parade was passing the president's stand, a spent bullet struck Mrs. Harry D. Tutewiler, wife of the chairman of the parade committee, who was sitting in a stand adjoining that of the president. Mrs. Tutewiler was struck in the leg, and was painfully, but not seriously, hurt. The velocity of the bullet had been expended, and Mrs. Tutewiler pluckily remained in the stand throughout the parade.

From the parade, Mr. Taft went to the Marion club, and shook hands with the people streamed by him, his collar melting, but his smile rising, and Major Butt kept at his work calling out the names of the people as seriously and energetically as though he were stoking a furnace. The afternoon was a bit less strenuous. An auto ride was inserted in the program as a rest, and it rained just a little while he was out, which cooled things off some. His address to the railroad men was short, but he referred to railroad unions as the best element of union labor, which was all they seemed to want, and they cheered him to the echo. In his reciprocity speech, he answered the charge that his Canadian bill does not represent the true Republican idea of reciprocity. He premised his speech with the statement that "the Republican policy of protection has suffered material modification since it was first adopted as a plank of the party's platform."

In this connection he said: "Extreme protectionists insisted that it made no difference how high the duties were on articles, products, or merchandise that would compete with those of our own country, provided they were high enough to prevent competition altogether. The argument was that by competition between our own people there would be found a sufficient stimulus for the reduction of the cost of production and the reduction of the price, so that behind the tariff wall we would enjoy low prices. I need not comment on the justice of this argument, for the reason that in the exigencies of business, competition was not allowed full play, and the temptation of excessive duties led to combinations to control prices, which prevented their reduction so that excess of duties had a tendency to promote excessive prices."

He then instanced the efforts of Blaine and McKinley to secure reciprocity in articles in which foreign makers would compete with Americans in this market.

Mr. Taft considered the relation of Indiana to Canadian reciprocity, claiming benefits for it by the remission of duties on food products, fish, lumber, gypsum, building stone and other articles in purchasing and in selling a benefit by the Canadian market for vegetables and fruits, agricultural implements and motor vehicles, and brick. He then continued: "I am most earnestly hopeful that the Canadian agreement will pass the senate and will be confirmed by the Canadian parliament."

Wolgast Bests Moran.
San Francisco, Cal., July 5.—Ad Wolgast, of Michigan, proved himself a real world's champion when after playing with Owen Moran, English challenger, for twelve rounds, he started in the thirteenth round and in half a minute knocked Moran out with terrific body blows. Wolgast simply outclassed Moran in every round. There was never a time that there was any doubt of the outcome. The blows which put Moran out were clean to the stomach and there was nothing close to a foul committed. Wolgast had Moran up against the ropes and hammered away with five body blows which took the steam and wind out of Moran.

CONTRADICTS DECLARATION

Dr. Eliot Says American Forefathers Were Wrong.

Boston, July 5.—Dr. Chas. W. Eliot, president emeritus of Harvard University, delivered a remarkable oration at the patriotic exercises in Faneuil hall yesterday afternoon. He said that all men are not created equal nor have they any inalienable rights to life, liberty and pursuit of happiness. Dr. Eliot reviewed the Declaration of Independence, saying: "The Declaration of Independence made some affirmations which were not of English origin, and have never been universally accepted by political philosophers, but which nevertheless have great influence on the policies and aspirations of the people of the United States. The statement that all men are created equal is manifestly not true in every sense. Men are not born equal in capacities, powers or dispositions, and under a regime of liberty the inborn diversities of capacity and character in different individuals increase as life goes on, and inevitably produce great inequalities in regard to property and general conditions of life."

WOMAN MAYOR IS STILL FIGHTING

Has Trouble With Obstreperous Council.

Hunnewell, Kan., July 5.—Although she has the support of Governor Stubbs, Mrs. Ella Wilson, the new mayor, has not yet conquered her obstinate councilmen. The council met Monday night for the first time since April 1, when Mrs. Wilson assumed office. It was an embarrassing evening for the woman mayor, and once or twice she appeared on the verge of tears. The five members of the council were there. They had to be, under threats of action by the governor. Mrs. Wilson appointed Mrs. E. E. Hilton, as clerk and asked the council to confirm the appointment. A motion was made and seconded, but all five members voted it down. The climax came when she entertained a motion for adjournment. It was made and seconded, and without waiting for the vote, she declared the house dismissed. No one moved. "Well, what are you waiting for?" she asked. Still no one moved, nor was there an answer forthcoming. Every one giggled. It took about an hour to get a legal adjournment.

TERSE TELEGRAMS

Frank Fyles, playwright and dramatic critic is dead at New York after a long illness.
At Cleveland, a score of people were overcome by the intense heat. The temperature was 102.
Mayor Seidel, of Milwaukee, was badly burned by the explosion of a gas heater in his bathroom.
At Hackensack, N. J., John McCloskey, forty, a widower of Kingsland, danced himself to death at a Fourth of July eve ball.
By the collapse of a small grandstand in the Reading, Pa., ball park, twenty-six people were injured, several of them seriously, and two of them may die.
As the result of the earthquake Saturday afternoon, at Reno, Nevada, the hot springs at Steamboat Springs south of Reno are now shooting water high into the air.
There were riots of striking freight handlers in Manchester, England. Stones and clubs were the main weapons in riots with the police and there were scores of broken heads.

FOURTH OF JULY HOTTEST EVER

Deaths and Prostrations Tell Sad Tale.

NO RELIEF IS PROMISED

There Was a General Inclination to Make a Less Noisy Fourth Than Usual in Most of the Cities of the Country.

Chicago, July 5.—From all over the middle west dispatches are pouring in with the message that yesterday was the hottest Fourth of July experienced since records first were kept. It was the third day of an ascending scale of temperatures, and the unwelcome news is offered that the top of the hill may not have been reached. There was rain in the far northwest, but from that region comes the information that six deaths made up the tribute of mortality.

In Chicago, which seems to be a special victim, the official government thermometer recorded 102. Chicago's toll of deaths was twenty-eight. There was the usual large number of prostrations. Deaths from heat in various cities:

Chicago, 20; Kansas City, 4; St. Louis, 10; St. Paul and vicinity, 6; Toledo, 1; Springfield, Ill., 1; Davenport, Ia., 1; Columbus, O., 1; Detroit, 6; Topeka, Kansas, 2; Sedalia, Mo., 1; Fort Worth, Tex., 1; Cincinnati, 2; Rockford, Ill., 1; Peoria, Ill., 2; Des Moines, Ia., 2; Sioux City, Ia., 1.

NEW YORK ALSO

Had a Big Parade and a Lessening of Noise.

New York, July 5.—In most of the large cities of the country, a safe and sane Fourth was celebrated and the death and maimed list was kept down.

The many people of New York came together at the city hall and celebrated a crackerless Fourth. There was speechmaking in the comprehensive coolness of the building when the mayor and his official family observed the hundredth birthday of the city hall. There was a parade in which silk-robed Chinese, Italians in close-fitting red uniforms, stiff-skirted Greeks, tawny haired Scandinavians, Jap baseballs, Indians in feathered head-dress, bare-kneed Tyroleans, messengers of peace from The Hague and a Chinese dragon with twenty-five men to manage its writhings were mingled.

Headquarters reported seventy-four prostrations in Manhattan, the Bronx, Brooklyn and Richmond. There were fourteen deaths that were attributed to the heat and six persons died suddenly in the city. Seven persons went to the hospitals insane, and there were thirty-six accidents that the police rate as routine accidents. Fifteen Fourth of July celebrants went to hospitals. One held a firecracker too long in his hand. Six persons were drowned in the waters around the city. The mercury reached 93.

ATWOOD'S FLIGHT

Interesting Air Journey From New York to Washington.

Atlantic City, July 5.—Harry N. Atwood's five hour flight from Governor's Island to Atlantic City ended on the beach in front of the Marlborough-Blenheim in the midst of a cheering throng. The second leg of his air trip to Washington will start today, his route and time of start depending on the weather.

The young aviator created enthusiasm as he swung over the top of the hotels fronting the board walk at Ohio avenue and shot high in the air over the ocean. He circled up the beach, dipping and cutting figure eights in the sight of thousands that had waited patiently for a glimpse of his daring. After darting a half mile to sea, following the length of the ocean pier, Atwood started to descend. He voyaged to the soft sand at the foot of Ohio avenue, landing in a small space roped off from the crowd. Police reserves were necessary to keep back the cheering thousands who gathered from every section of the city with news of his arrival.

MOTHER'S DREAM

Strange Premonition of a Boating Accident.

New York, July 5.—Two Newark, N. J., young women were drowned and three others narrowly escaped with their lives while boating on the Shrewsbury river at Kearsburg yesterday. The dead are Margaret Dolan, twenty-five years old, and Miss Bessie Mulvaney, twenty-four. The party had gone to the resort to spend a week. Miss Driscoll joined the party much against the desire of her mother, who on Friday night, had a premonitory dream in which she declared something awful was going to happen to her daughter.

Five persons and the fragments of an auto were scattered along a car line near Long Meadow, L. I., by an electric car going forty miles an hour. Two women died on the way to the hospital, and the third thirty minutes after her arrival there.

TRACTION CAR STRIKES BUGGY

Walter Heusman is Not Injured in Accident When Buggy and Interurban Collide.

ACCIDENT AT SHELBYVILLE

W. E. Wagner of This County Crashed Into Buggy on Streets of Shelbyville.

A west bound I. & C. traction car crashed into a horse and buggy in Shelbyville Monday evening, throwing out Walter Heusman of that city, demolishing the buggy and slightly injuring the horse. No blame is attached to the motorman as it was an unavoidable accident, according to Shelbyville papers.

Witnesses of the accident declare that it was remarkable that the only occupant of the vehicle escaped being badly hurt as it seemed that he would be killed, when his horse jerked the buggy directly in front of the car. Heusman's life was probably saved by the fact that he was thrown out of the buggy. He alighted on his back and received few injuries.

Persons who witnessed the accident consider it remarkable that Heusman escaped serious injury. While on his way home his horse had been frightened by the noise of some firecrackers and he was unable to control it although he saw the car coming from the south. The horse swung suddenly across the track before he could steady it and threw the buggy directly in front of the oncoming car. The motorman stopped the car as soon as possible and the buggy and horse were dragged along the street for some distance.

Another accident occurred at Shelbyville late Saturday night in which a Rush county man was a participant. The machine driven by W. E. Wagner of Orange township ran

into a buggy in which Mr. and Mrs. Porter Limpus of Shelby county were riding. Due to the fact that a gentle horse was hitched to the buggy, no one was hurt. The buggy was slightly damaged. The Rush county man refused to pay for the damage done, believing that the accident was as much the fault of Limpus as himself.

Both parties were starting on their way homeward after having spent the day in Shelbyville. Mr. Wagner accompanied by his wife, had climbed into his machine and was slowly making a turn in preparation for proceeding eastward. Mr. Limpus had his horse hitched in the northwest corner of the square and swung around the turn from the north as Mr. Wagner started to turn eastward from the south. The machine struck the front part of the buggy and pushed buggy and horse along in front of it for ten or fifteen feet before Mr. Wagner could stop. The two drivers disagreed as to who was at fault in causing the accident. Mr. Limpus took Mr. Wagner's name and address and the number of his machine and may bring suit if he finds that the damage to his buggy is sufficient to warrant such a proceeding. The automobile was a five passenger touring car.

HAS NO LICENSE PAYS A BIG FINE

Jesse Monerief is Compelled to Part With \$33.50 For Killing Two Small Squirrels.

ARRESTED NEAR SPICELAND

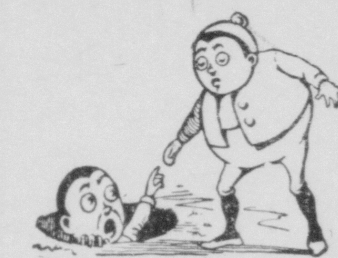

When Jesse Monerief boarded a car near Spiceland after being on a hunting trip, says the New Castle Times, he was accosted by a man who said: "I see you've been hunting; did you have any luck?" "You bet I did," said Monerief, "I got a couple of squirrels." On this reply the stranger spoke up and said, "Let me see your license. I am Game Warden Bravy of Anderson."

Monerief stated that he had a license, but that he had left it at home. "All right," said Bravy, "I'll just go home with you and take a look at it." When it came time for Monerief to leave the car he told Bravy it was no use to go to his home as he did not have a license and might just as well fess up. The result was that Monerief was taken before Justice Koons Monday evening, charged with hunting without a license. He was fined \$33.50 and paid it, rather a dear price to pay for two little squirrels. Now that the squirrel season is on, deputy game wardens can be found most anywhere and it is serious business to hunt without a license.
